

Kitchen Leash

The Kitchen Leash is design specifically for areas of food preparation where power cords need to be kept off the floors and electrical power can be made available to kitchen and support workers.

By mounting the Kitchen Leash overhead the power can be pulled down and retracted as needed.

In food preparation areas where cleanliness and safety is a requirement, the Kitchen Leash is a must. The Kitchen Leash allows food preparation and cleanup crews to avoid power cables typically found on the floor. When mounted overhead the Kitchen Leash avoids water, grease and food prep waste contamination.

In the event that the Kitchen Leash becomes greasy, the Kitchen Leash can be cleaned with standard soap and water or a mild disinfectants.

Benefits of the Kitchen Leash

The Kitchen Leash provides many benefits for its use in many different environments.

Reduces "trip and fall claims"

Increases employee productivity

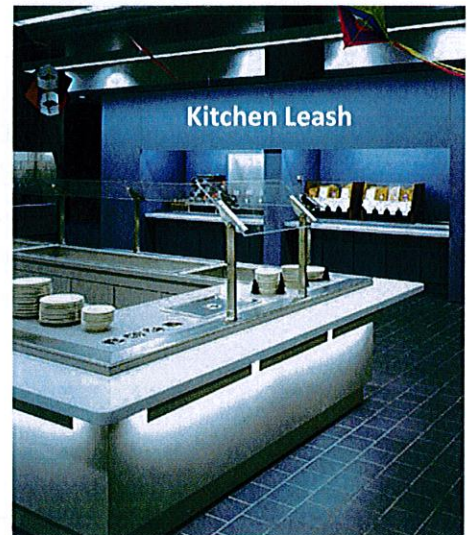

Provides for a safe working environment

Simplifies food prep area cleanup

Provides electrical power to where its needed

Product Data Sheet

Specifications

CASE

- Dimensions - 9" x 12" x 3'
- Molded Polypropylene
- 3.175 mm thickness
- 94V-2 Flammability Rating

POWER CORD

- Gauge / Conductor - 16/3 AWG
- Type - SJOW
- Length - 10' and 20'
- Rating - 200 degrees F

CIRCUIT BREAKER

- 15 AMP

RECEPTACLE / PLUG

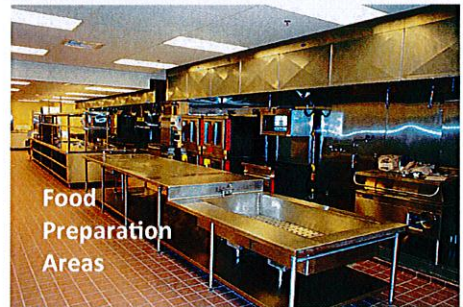

- Rated - 125 VAC / 15 AMP
- Receptacle - NEMA 5-15P
- Plug - Dual Duplex Rated at 15 AMP

Testing

- Impact - UL746C
- Hose Down - CSA 6.8.2
- Strain Relief - CSA 6.4
- Flame Retardant - UL 94-94V-2
- Conforms with UL 355 and CSA C22.2
- ETL Tested and Approved

We also carry retractable power cord reels for industries including; Automotive, Healthcare, Marine, Construction, Industrial and various other uses.
